AIM OF THE CONFERENCE

The second House of Life Healing Conference “Abydos Holy City of Ancient Egypt” has the aim to combine Science – Healing Knowledge and Art together, with the intention to bring a deeper awareness about how these three fields are inseparable connected to each other and how the Ancient Egyptians expressed this in their daily lives.

The ancient Egyptians experienced their world as one. Their daily life was connected with nature. The nature was connected to the natural forces they call Neturu; in modern words, the Gods and the Goddesses of ancient Egypt. Nowadays we are calling the way how the ancient Egyptians were connected with nature, holistic.

Studying the pantheon of the Egyptian Neturu, their nature, their language, the hieroglyphs, the temples and their ritual scenes, and studying the daily life of our ancestors, will keep and bring a knowledge alive of a civilization that had such an incredible historical influence on the humanity on Earth, thousands of years back in our history. Until today still many people on Earth are touched by the knowledge of the ancient Egyptians.

We hope that the second House of Life Healing Conference will inspiring us as much as the beautiful first House of Life Healing conference in 2019 did.
